

Dr. Anna Osann, *Co-founder and Innovation Director of AgriSat Iberia s.l.*

Dr. Anna Osann, co-founder and Innovation Director of AgriSat Iberia s.l., a Spanish SME operating globally, providing tools and services that help the farm sector optimize nutrient and water management.

As an Honorary Fellow at Universidad de Castilla-La Mancha, Dr. Osann has also coordinated a series of EU-funded projects (e.g. FATIMA, SIRIUS, PLEIADES) on sustainable agriculture and water management over the last 15 years. She is an expert in bringing practical applications of space technology into the hands of users.
