

**Loredana Bruca,**  
*GSOp Service Provision Manager, Spaceopal GmbH.*

Loredana Bruca started her career in the space sector in 1990 working in Telespazio S.p.A and Italian Space Agency as project manager for Ground Control Systems development and operations in most of major international space projects and programmes such as SAX, GOKTURK and the design of Galileosat System Operation. She joined Spaceopal GmbH in 2014 as responsible for Early Services engineering operations preparation and validation to support the test campaigns for Galileo Services (OS, CS, SAR, PRS) provisioning. Starting from July 2017 she has been appointed as responsible for Galileo Service Provision in the GSOp contract and coordinates the team in charge of Galileo service delivery, troubleshooting and performance level monitoring.
