

Pablo Gonzalez,

*Director NATO & European
Defence Programs*

He joined **Indra** in 2000, being **Director for NATO and European Defence and Space Programmes** since March 2013. He is currently member of the ASD Defence Business Unit and of the Council of EUROSPACE (2015-17). He has participated as Expert on several ISTAR, BMD and IAMD NIAG Studies.

Between 2007 and 2013, he was **Director of Unmanned Systems**, developing a portfolio of new RPAS, pioneering its insertion in airspace and contributing to the EC Roadmap for RPAS.

Business Development Manager for European Space Programmes, from 2000 until 2007, strongly involved in the foundation of the Galileo Joint Undertaking.

Before Indra, he was **member of the Spanish Delegation to ESA** and **Head of ESA Programmes Department in CDTI** (Spanish Ministry of Industry and Research).

Engineer and project manager in GMV (1990-95), involved in GNC and Mission Planning, for METOP, MSG and Rosetta.

He served as second lieutenant **Flight Test Engineer** in the Spanish Air Force in 1990.

Master in Aeronautical Engineering by the Universidad Politécnica de Madrid (UPM) in 1989. He completed **Advanced Management Programmes** in IE Business School and ESIC in 2003 and the 29th edition of **IHDN Session Européenne des Responsables d'Armement (SERA)** in 2017. He **lectured Mathematics in UPM Aeronautical Engineering School** in 1997-99.
